

**WOMEN'S COLLEGE, AGARTALA**  
**INTERNAL QUALITY ASSURANCE CELL**  
**Feedback Review Report (2016-17)**

The Internal Quality Assurance Cell, Women's College, Agartala has collected feedback from various stakeholders such as students, faculties and parents as a part of AQAR. The Cell has thoroughly reviewed the feedback analysis report that shows our strength as well as our lacunae in various strata. The feedback analysis reveals that quality of the most of the honours students is good while that of general students is above average. So far as class attendance is concerned, there is scope for improving the regularity record of the general students. Initiatives need to be taken to improve library facility, accessibility of computer, availability of journals, bring in modern teaching tools and research equipments in the dept. /college. These initiatives will help the teaching faculty to keep themselves updated with the latest development in their respective fields. Most of the faculty members are of the opinion that teachers should be rewarded for doing well. The feedback analysis also emphasizes the need to keep the college campus clean and pollution free.
